Empathy Map

Create an empathy map to understand your customer/user from four perspectives - what they Say, Think, Do, and Feel - in relation to the problem your project addresses. This helps the team build a customer-centric solution.

SAYS • I need quick and accurate answers for my doubts. • I want study materials that are easy to understand. • I need a better way to revise before exams.	THINKS • Learning should be simple and interactive. • AI can help me study more efficiently. • I want personalized guidance for different topics.
<i>Priya Engineering Student</i>	
DOES • Searches for answers online. • Uses AI tools for learning and assignments. • Revises using quizzes and flashcards.	FEELS • Confused when study material is lengthy. • Motivated to improve academic performance. • Happy when learning becomes easier and faster.
