

Solution Requirements

Date	15 July 2026
Team ID	SWTID-2026-2280
Project Name	EduGenie – AI-Powered Educational Assistant
Maximum Marks	4 Marks

Functional Requirements (FR)

S. No	Requirement Category	Requirement Description	Priority
1	Authentication	No user authentication required in the current version.	Low
2	AI Question Answering	Users can ask questions and receive AI-generated educational responses.	High
3	External Interfaces	Integrates with Google Gemini API for AI features.	High
4	AI Processing	Generate quizzes, summaries, flashcards, and learning paths.	High
5	History	Store previous user interactions using Local Storage.	Medium
6	Business Rules	Generate educational content based on user input and selected feature.	High
7	Compliance	API key stored securely using environment variables (.env).	Medium
8	Other	Dark mode with saved user preference.	Medium

Non-Functional Requirements (NFR)

S.No	NFR Category	Requirement Description	Target Metric
1	Performance & Speed	Fast AI response and smooth UI	Average response time < 2 sec
2	Scalability	Can be extended with user accounts and cloud database	Supports future enhancements
3	Security & Data Privacy	API key stored securely and local user data protected	Secure environment variables
4	Reliability & Availability	Stable application during normal usage	99% availability
5	Usability & Accessibility	Easy-to-use responsive interface	Mobile-friendly UI
6	Other	Maintainable and modular codebase	Easy future development
